

WATER CONSERVATION

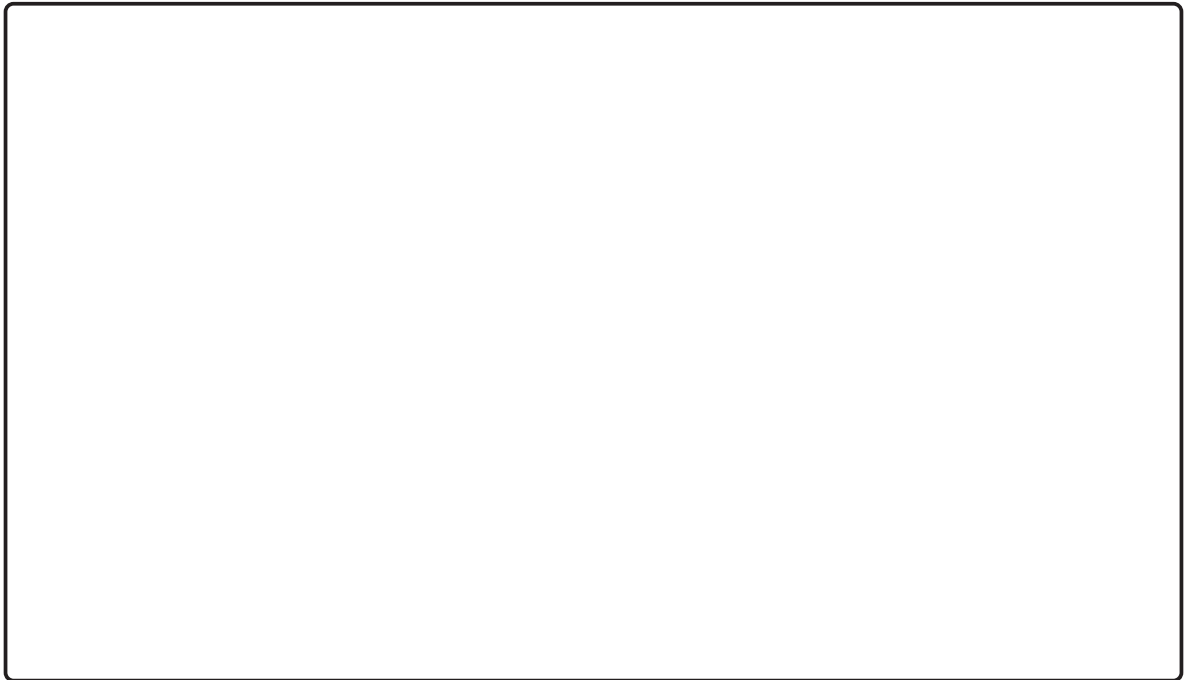

Water is Important

1

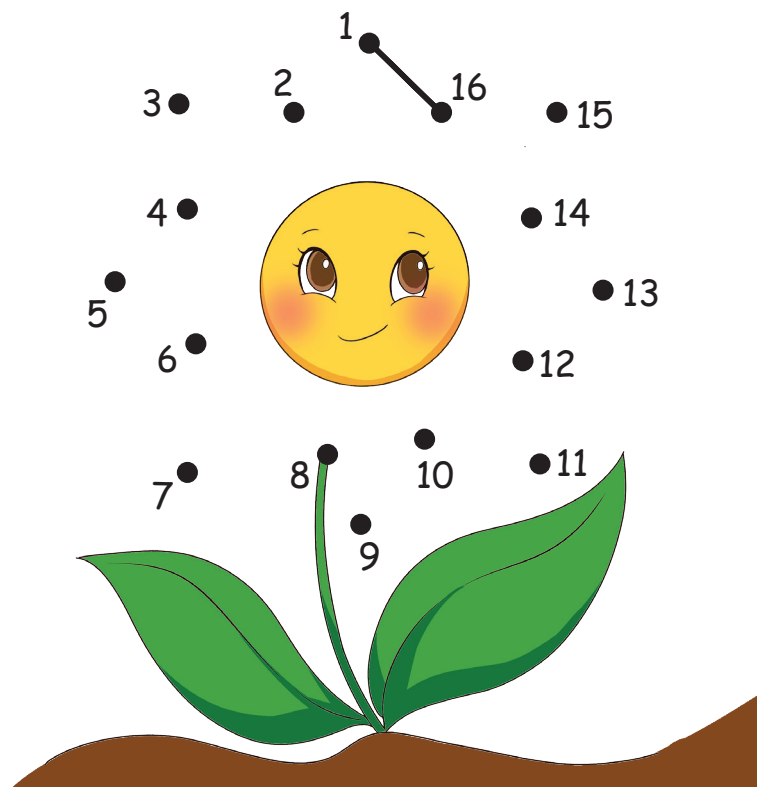

How do you use water at home? Draw lines to match the pictures to the words.

**Drinking****Toilet****Watering the garden****Washing dishes****Washing your hands**

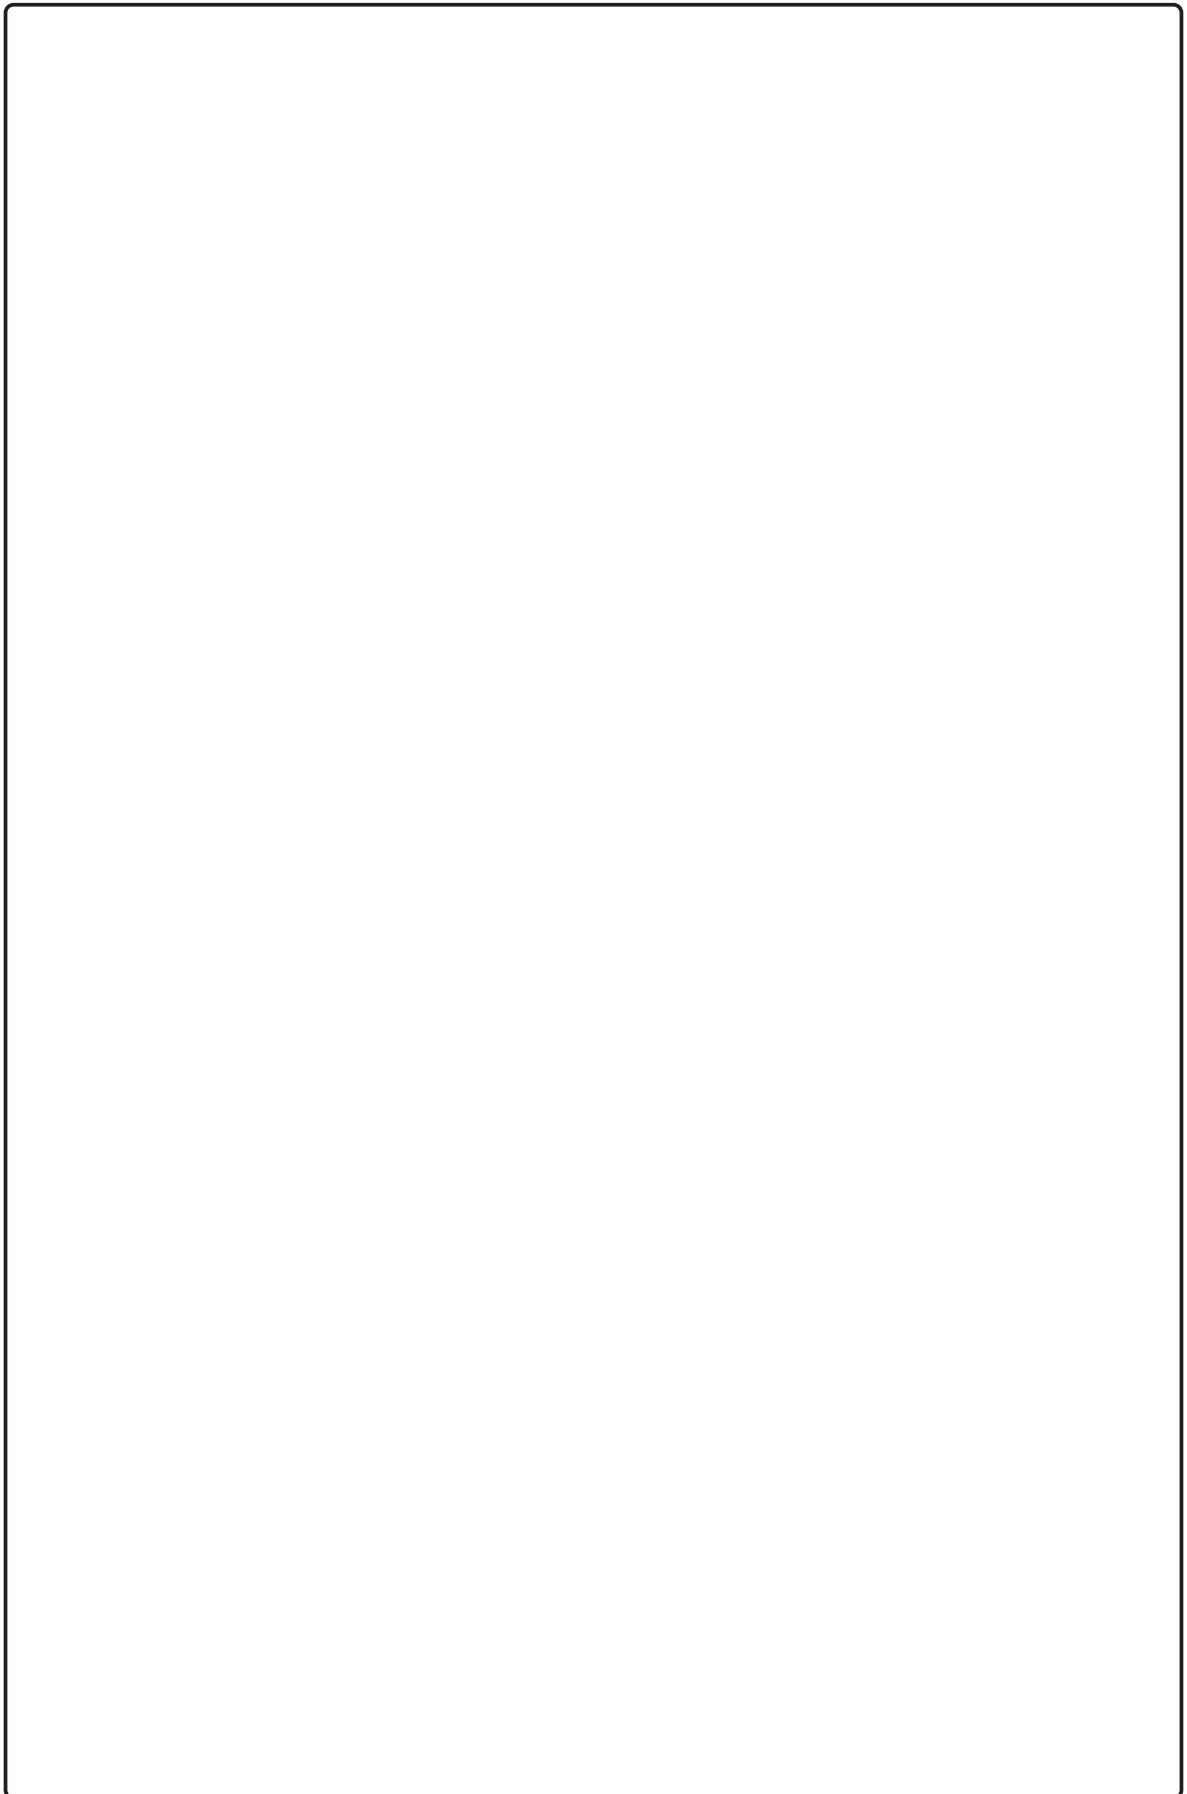

2 Where else is water used every day? Draw a picture of someone using water. Is it a picture of you?

3 I need water to live. Join the dots to see what I am. Then colour me in.

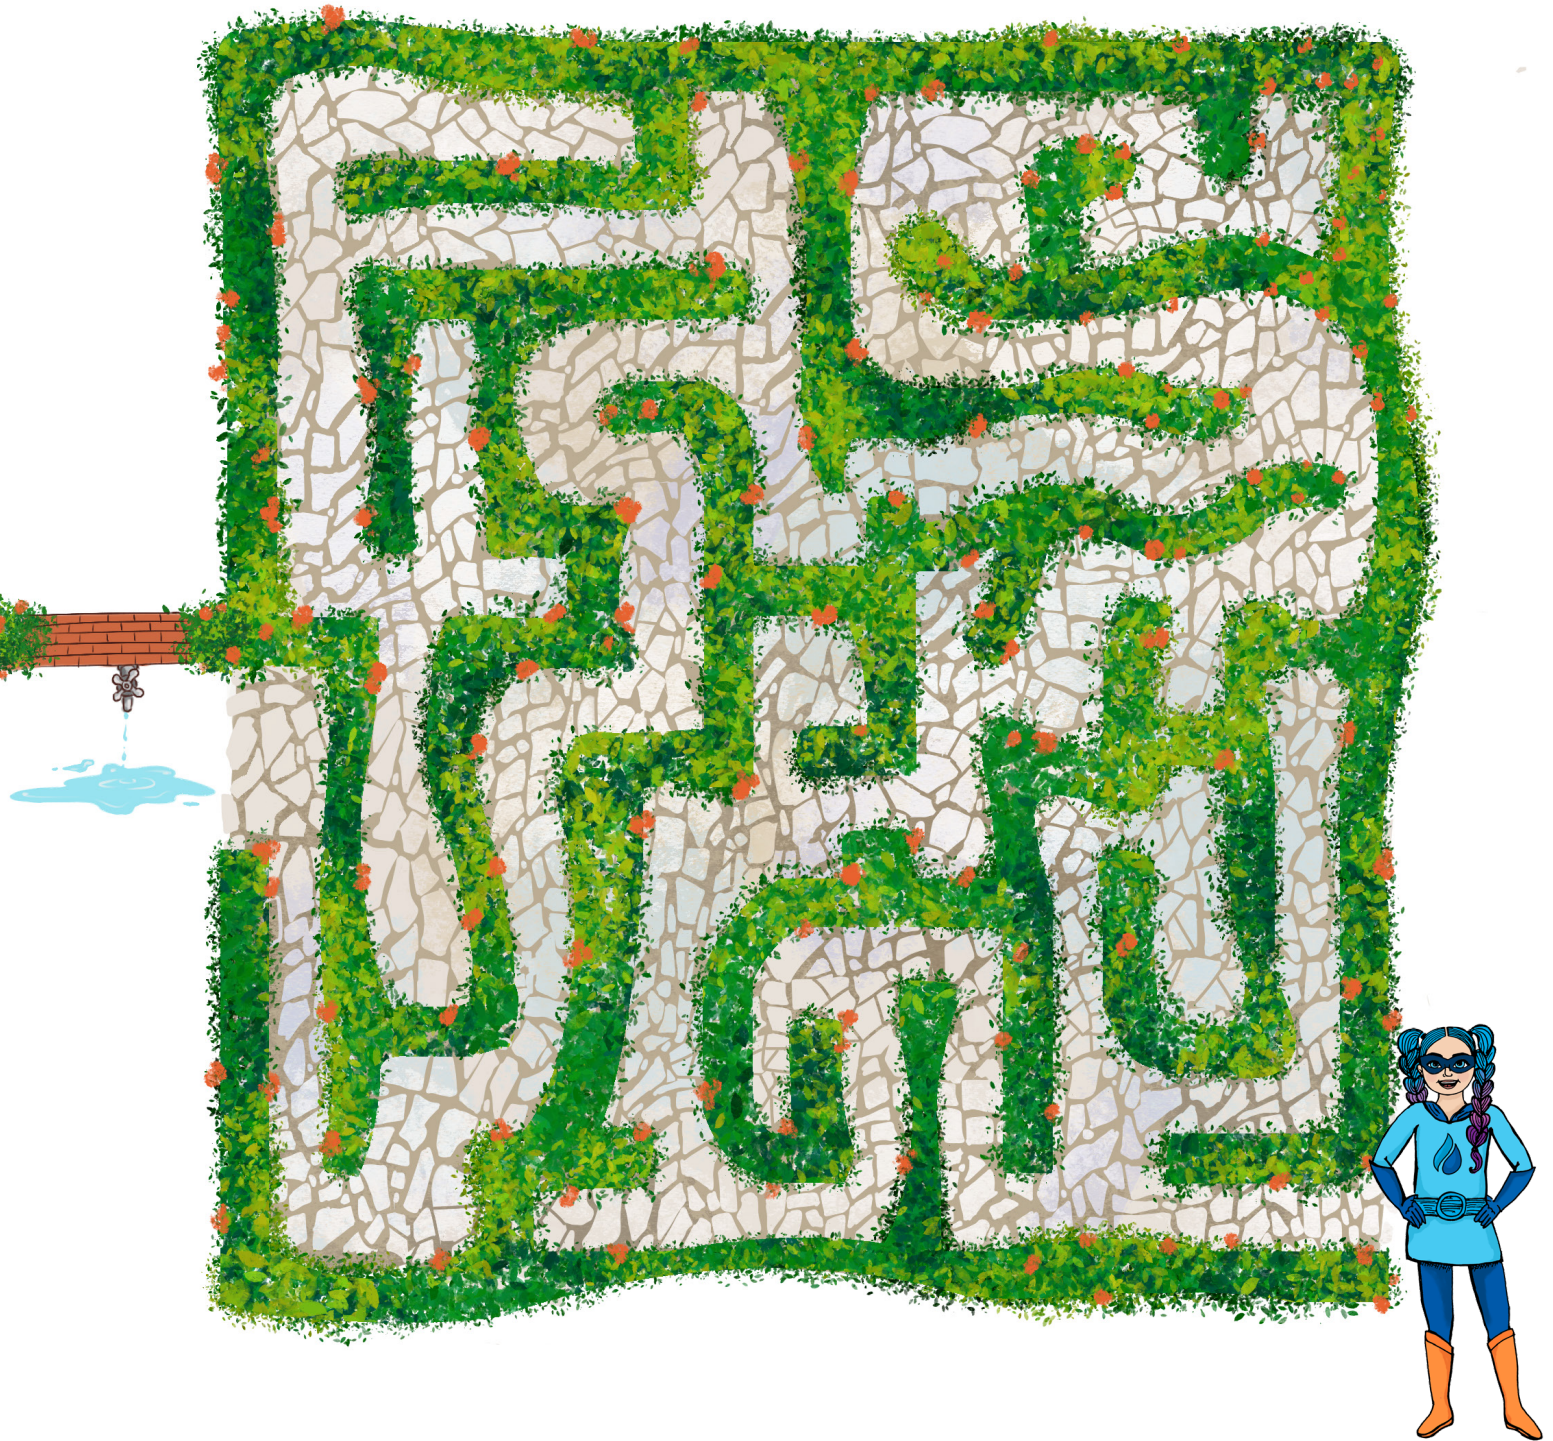

4 Draw a picture of something that needs water to grow.

5

Captain Water knows that we must not waste water so that there is plenty for everyone. Help Captain Water find the dripping tap, so she can turn it off.

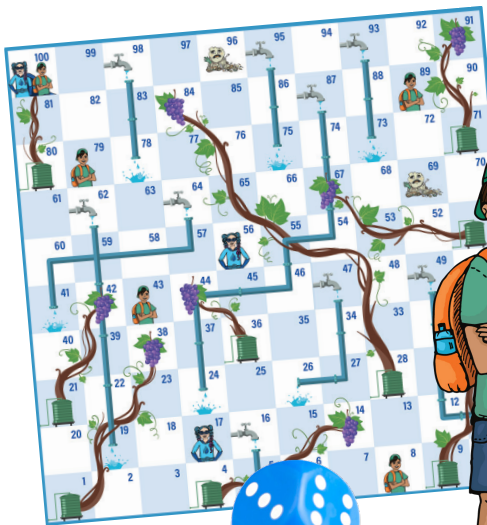

6 Draw a green circle around the container that holds the most water. Then draw a red circle around the container that holds the least amount of water.

PLAY A GAME

Grapevines & Drains

Play the game Grapevines & Drains. You will need at least two players and a die or dice.

WORK WITH A FRIEND

Sort It Out!

Sort the cards into two piles. Which pictures show water being used wisely? Which pictures show water being wasted?
