

Family Water Detective

Is your family water-wise?

Investigate how water is used in your home. If you answer 'yes' to a question, colour in the star next to it.

Time how long a family member takes to shower.
Was it less than 3 minutes?

Look at all the taps inside and outside your house.
Are there no dripping taps?

If you have a dishwasher, is it always full when it is used?

If you have a bath, do you only half fill it?

When the washing machine is used, is it full of clothes?

Does your house have a front-loading washing machine?

Does your house have a dual-flush toilet?
